

the art of style

Our trend-setting team of designers continually introduces new colors, new styles, and new fabrics, because we know it's not enough that our products provide the most effective Robotic Massage® on the market. To deserve a place in your environment, our chairs must be great looking as well as therapeutic.

It's our way of saying we understand what you want.

the science of comfort

Everyone likes to feel good. At **Human Touch,™** it's all we think about.

Our team of scientists, researchers, and engineers analyze the treatments used by massage therapists, chiropractors, and physicians, and turn those techniques into the sophisticated **Robotic Massage Technology™** mechanisms that animate our family of chairs. By building on our decades of experience as the world leader in massage technology, we consistently produce the most advanced Robotic Massage® systems ever devised.

Specifications

Style:	Human Touch iJoy™130	Chair Reclined Dimensions:	50"L x 29.3"W x 19.7"H
Product Description:	Human Touch iJoy™ Robotic Massage® Chair	Chair Upright Dimensions:	41.5"L x 29.3"W x 35.5"H
Volt AC:	120	Weight Product Lbs:	80 lbs
AMP/Watt:	.58/70	Master Carton Quantity:	1 Unit
Regulatory Certification:	cETL	Master Carton Dimensions:	52"L x 30"W x 21"H
Recline Angle:	110/170 Degrees	Master Carton Cube:	18.8'
Massage Head Storage:	Top	Weight Shipping Lbs:	97 lbs
Automatic Timer Shut-Off:	15 minutes	Container Quantity (40 Foot):	135 Units
Total Massage Stroke Length:	20"	Truckload Quantity (53 Foot):	180 Units
Upholstery Material:	Micro-suede/Nylon Mesh	Shipping Method:	Common Carrier
Massage Robot:	Human Touch Technology® Robotic Massage® Quad Rollers	Shipped From:	FOB Long Beach, CA, USA
		Country of Origin:	P.R.C.
		Warranty:	1 Year Limited Warranty
		Included:	Massage Softening Pad, Use and Care Manual

meet your new **best friend.**

human touch

Inside every Human Touch iJoy™ Robotic Massage® Chair are the “hands” of a trained massage professional – just waiting to provide you with a soothing back massage. But don’t take our word for it. Sit down in one.

Our multi-patent **Robotic Massage Technology™** massage system so closely replicates the therapeutic techniques used by back and spinal care professionals that it is the preferred technology of the American College of Chiropractic Orthopedists. It is designed to follow the natural contour of your spine and move three-dimensionally in four different modes.

Human Touch iJoy 130™ does what you tell it. Each of four powerful massage modes can be programmed to give you the touch you prefer. The controller has three different programmed massage sessions of 15 minutes, which means you can kick back and enjoy a programmed massage whenever you feel like it.

the science of **comfort.**

Robotic Massage Technology™ starts with a patented mechanism that works like “wrists and arms.” We added “hands” --massage rollers that move three-dimensionally on a straight track. The result is a Robotic Massage® that feels remarkably human.

Rolling: Feels like the gentle hands of a massage therapist, pressing firmly on one side of your spine, then the other. It relieves tension and loosens the muscles to prepare your back for deeper massage.

Kneading: Feels like thumbs pressing firmly in a circular motion on both sides of the spine. This therapeutic motion goes deeper, lifting and stretching muscles to improve circulation.

Compression: Feels like the heels of a professional therapist’s hands firmly pushing on muscles alongside your spine, and inward toward the spine itself. This mode aids in improving mobility and posture.

Percussion: Feels like fists or the edge of hands rapidly tapping on your back muscles. This is the deep muscle therapy popular in sports medicine. It flexes spinal joints, relieves pressure, and invigorates your entire back.

Functions:

Rolling:	1-Speed
Kneading:	1-Speed
Compression:	1-Speed
Percussion:	1-Speed
Range Control:	Partial massage stroke 3” up & down for kneading or compression
Position Manual Up/Down:	Manually moves massage rollers to desired location for kneading, compression and percussion
Backrest:	Manual recline
Stop/Auto Park:	Stops all massage functions and parks the massage rollers in their highest position
Programmed Massage Sessions:	Full: 15 minute program-Series of combined functions for your entire back Upper: 15 minute program-Series of combined functions for your upper back Lower: 15 minute program-Series of combined functions for your lower back

Removable massage softening pad

Easy-to-reach recline lever

Child safety lock

Retractable controller stores within easy reach

Wheels for easy mobility
